Introduction

A Cancer Registry Training Programme was conducted at the District Training Unit, Mayurbhanj district, with the objective of strengthening cancer registry activities and improving the knowledge and skills of healthcare personnel involved in cancer data collection and reporting.

The training programme was led by staff members from Tata Memorial Centre with the support of the District Public Health Officer and Assistant Manager NCD. The programme focused on creating awareness regarding the importance of cancer registry, standardized data collection procedures, and quality reporting mechanisms.

At the beginning of the session, all participants were asked to complete a pre-test assessment to evaluate their baseline knowledge regarding cancer registry concepts, reporting procedures, and registry activities. The pre-test helped in assessing the existing understanding of participants and identifying areas requiring further emphasis during the training sessions.

Distribution of Training Materials and Pre-test Assessment Welcome Address and Commencement of the Session

The Cancer Registry Training Programme commenced with the welcoming of dignitaries and district health authorities to the dais during the inaugural session. The programme marked the beginning of cancer registry activities in Mayurbhanj district and aimed to strengthen systematic cancer data collection and reporting within the district.

As a token of appreciation for initiating and supporting cancer registry activities, a trophy was presented to the Acting CDMO & DPHO for his leadership and encouragement towards the programme. Bouquets were also presented to the distinguished officials present during the event, including the DPHO, DPM, ADPHO Disease Control (DC), and the Day Care Chemotherapy Medical Officer, as a gesture of welcome and respect.

Token of Appreciation was presented as a trophy to the CDMO and DPHO of Mayurbhanj District
